

DataSync API for Person Media Category

[Download OpenAPI specification:Download](#)

Overview

A new person media category (`Portrait Headshot`, `Portrait Bodyshot`, and `Landscape Bodyshot`) has been added in Dash for the Corcoran brand. As a part of this change, all the existing staff media category with values for `Person Photo` will be updated with the value for `Portrait Headshot`. The default photo URL will be for the `Portrait Headshot`.

There is no schema change as part of this enhancement, but the existing Corcoran agent data may be impacted if Vendors are still relying on the `Person Photo` value. This change is only for the Corcoran brand, and all other brands data will remain same.

Use this API to

Replace all `Person Photo` values in the person media category for the Corcoran brand with the `Portrait Headshot` value

How the DataSync API for Person Media Category

This API allows you to search all JSON objects for the Corcoran brand and update the values for `Person Photo` in the `category` key-pairs with the `Portrait Headshot` value.
